

# Getting foxy with doxy: Sexual Health Promotion and STI Prevention Update

This Grand Rounds session will cover key updates in STI prevention, including HIV PrEP advancements, doxycycline for bacterial STI PEP, and current STI trends in New York. The session will convene subject-matter experts to equip New York healthcare professionals with the latest knowledge and tools to enhance their practice in preventing and managing human immunodeficiency virus (HIV) and other sexually transmitted infections (STIs).

*Grand Rounds is designed for New York physicians at no cost, but other healthcare professionals are welcome. Certificates of Attendance can be provided for submission to your accrediting body.*
